Jeff:

See attached proposed LOE for USACE activities at West Lake LF based upon our discussions. Again, this is a very conservative approach to LOE to try to minimize the need to adjust later. Expect we will need to discuss further once you have reviewed.

Also attached is draft language for IAG. It has not been reviewed by HQUSACE yet, so we will need to resolve with you any issues with how we have captured the scope and it will then have to be approved through our HQ before finalizing.

Please let Scott or I know when you are ready to discuss.

Thanks,
